Summary

Full Stack Developer specializing in the MERN stack, with expertise in designing and developing responsive web applications. Experienced in projects like a cake booking platform, travel booking website, and food delivery app. Emphasizes user experience and performance, and recognized for academic excellence and creative design skills.

Skills

- Frontend : HTML5, CSS3, JavaScript, Tailwind CSS, React.js.
- Backend : Express, Node.js, MongoDB.
- Design Tools : Figma, Photoshop, Canva.
- Mobile Application : Flutter

Experience

Intern

Why Global Services, Chennai Feb 2024 - Present

Gained hands-on experience in full stack development during an internship at Why Global Services, enhancing skills in key technologies such as HTML, CSS, JavaScript, and more. Applied these skills to real-world projects, contributing to innovative solutions and gaining valuable industry insights.

Projects

Cake Booking Website

HTML, CSS, JavaScript

Created a user-friendly cake booking platform enabling customers to order cakes conveniently from home. Designed to make special occasions memorable with customizable options for easy and delightful celebrations.

Travel Booking Website

Figma

Designed a responsive travel booking website prototype using Figma, focusing on intuitive user interfaces and seamless navigation, ensuring an enhanced user experience and streamlined booking processes for travelers. This design effectively addresses the needs of diverse users and simplifies travel planning.

Food Delivery App (Burger)

Flutter

Developed a user-friendly Flutter-based food delivery app for ordering a wide variety of burgers, designed to be accessible to all users. Features include 24/7 delivery, real-time order tracking, and customizable options. Ensured a seamless and enjoyable experience with intuitive navigation and efficient ordering processes.

Travel Guide

React, Node.js, Express.js, MongoDB

Designed and developed a dynamic travel destination guide using React for the front end and Node.js for the back end. Features allow travellers to explore diverse destinations, budget activities, and accommodations, thereby enriching the travel planning experience with comprehensive local insights.

IELTS

Flutter

Developed a mobile application designed for IELTS preparation, focusing on improving reading, writing, speaking, and listening skills. The app offers interactive exercises, practice tests, and personalized feedback to enhance language proficiency. Aimed at helping students achieve higher scores and better overall performance.

Education

PG in Full Stack Development (MERN)

Why Global Services, Chennai *Feb 2024 - Present*

Bachelor of Computer Application

Thiruvalluvar University . *Jun 2020 - Apr 2023*

Awards

Winner , Inter-College photo editing competition.

College

Recognized for academic excellence ,Thiruvalluvar University.

College

Declaration

I affirm that the information presented is true and accurate to the best of my knowledge.
